ALEJANDRO HEREDIA

Computer Science Engineer| alexhs.2903@gmail.com |https://alexhs2904.github.io/

PROFILE SUMMARY

I am a sixth-semester computer science engineering student at the Benemérita Universidad Autónoma de Puebla (BUAP). I am passionate about programming and information technology, and I consider myself a disciplined person as I am always constantly seeking opportunities for learning and growth in this ever-evolving field.

EDUCATION

BUAP | Computer Science Engineering
- August 2023 – Present

CERTIFICATIONS & PROJECTS

- <u>Car Agency</u>: Built a public catalog and an admin dashboard to manage cars, sales, and listings with role-based access.
- <u>Fruticrunch</u>: Web platform built for an entrepreneurship course to showcase and promote a classmate's business idea.
- <u>Blog webpage</u>: Created a blog where users can create, edit and view tech posts.

The Complete Full-Stack Web Development Bootcamp | Dr. Anegla Yu (Udemy)

WORK EXPERIENCE

Finland | International Volunteer   June 2025 – July 2025
- Collaborated in a multicultural environment, strengthening teamwork and communication skills.
- Participated in an international volunteer program focused on improving and maintaining both indoor and outdoor spaces.
- Adapted quickly to new tools, workflows, and instructions, ensuring tasks were completed on time despite changing environments.

Schneider Electric | IT Business Partner Intern   May 2023 – October 2023
- Coordinated IT project activities, including planning, monitoring, and controlling deadlines and budgets.
- Learned and applied key concepts such as Agile methodology and SCRUM.
- Gathered and documented business requirements from stakeholders to support the development or improvement of internal digital solutions.

CORE COMPETENCIES & LANGUAGES

Programming Languages	Python	HTML	JS	CSS	SQL
Data Visualization Tools	Tableau	Python (Matplotlib)
Languages	Spanish (Native)	English (B2)	German (B1 – Conversational)
